

SecureObs

CLINICAL WORKFLOW INTELLIGENCE

Safer observations. Clearer handovers. Better evidenced care.

SecureObs brings ward observations, patient notes, care plans, medicines, safety escalation, analytics, rota cover and family sharing into one practical digital workflow.

[Book a demo](#)

Built for secure care, mental health and care settings

Obs

Safer patients

Due checks, risk visibility and escalation prompts.

Stronger teams

Clear handover, staff cover and task ownership.

Lower risk

Signed records, audit trails and sync resilience.

Better outcomes

Patient voice, care planning and analytics insight.

EVERYTHING IN ONE SECURE CARE PLATFORM

Clinical observations

- ✓ General observations
- ✓ NEWS2 and physical health
- ✓ Enhanced observations and TESO
- ✓ Food and fluid recording
- ✓ Medication chart and PRN records

Patient records

- ✓ Patient notes with PDF export
- ✓ Structured care-plan templates
- ✓ Patient dashboard and timeline
- ✓ Patient voice and preferences
- ✓ Approved family shared view

Safety and governance

- ✓ Safety and escalation centre
- ✓ RAG-rated incidents
- ✓ Body-map injury recording
- ✓ Security and environmental checks
- ✓ Traceable audit history

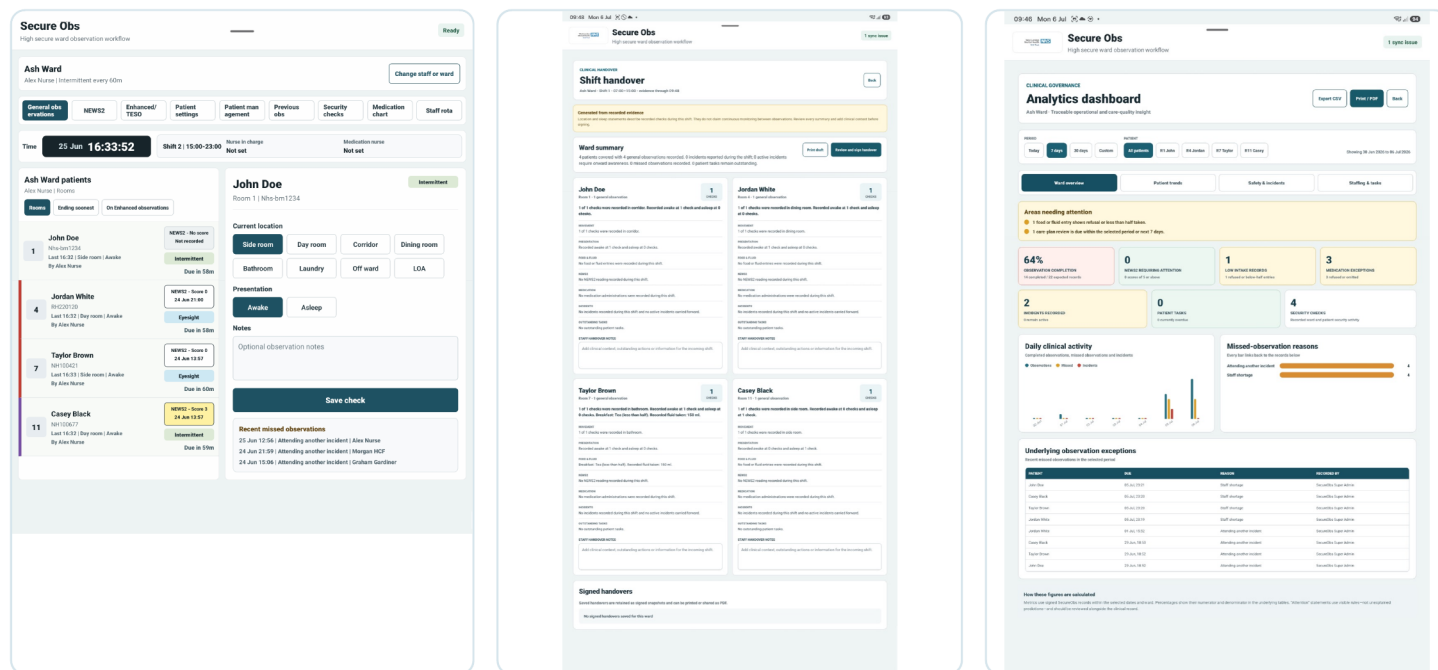

Ward operations

- ✓ Shift handover summaries
- ✓ Analytics dashboard
- ✓ Staff rota and role allocation
- ✓ NFC staff cards and PIN access
- ✓ Offline queue and retry support

DESIGNED FROM THE WARD OUTWARD

From the first check to the end-of-shift handover, SecureObs remembers the important things.

Staff can record checks quickly while managers see evidence-led summaries of what happened, what needs attention and what has been handed over.

COMPLETE MANAGEMENT PACKAGE

Implementation, setup and support around the software.

Organisation and ward setup

Staff training and go-live support

NFC staff tag configuration

Feature switches per ward

Secure cloud deployment

Device setup guidance

Why teams choose SecureObs

It replaces scattered paper, isolated spreadsheets and disconnected checks with one clear, auditable operational record.

Let's build a safer, smarter care workflow.
